

# WHY CHOOSE WALKER & WALKER

We have been a family business since 1978. We have **over 40 years helping Minnesotans** get out of debt and into good credit.

In 2017, we made hundreds of thousands of dollars for our clients by finding mistakes made by debt collectors and big financial companies.

## WE DID THIS BY:

Going through credit reports and correcting errors.

Proving that companies had used abusive autodialing phone systems.

Double checking court records for errors made when suing our clients.

Following up with our clients after bankruptcy to make sure debt collectors have stopped contacting them.

Going through our clients mortgage account histories for illegal fees and false invoices.

Going through Department of Motor Vehicles records to find wrongful repossessions.

Tracking collectors to make sure they cease contact after we tell the collectors we are working with each client.

We work with you on payment plans for attorney's fees.

Evening and Saturday appointments are available.

Friendly and knowledgeable staff. No judgment here, we just want to help you get out of debt.

We make sure your credit reports are correct after bankruptcy.

Don't take our word for it, read our reviews on Google.
